Passed all of the levels in about 2 hours without any special items. My eyes almost hurt for the game.

Three main problem:

1. cannot find the options to change the default keys for hitting. D/K are too far for single hand player.
2. nowhere to set the overall hitting time offsets, I have to hit every objects earlier than the beats , which is disgusting for a music game.
3. the objects are too tight to find the correct rhythm and sometimes non-linear for invariant-speed streaming.

Patch Notes - 1.0.1:
